Please carefully review your ad, paying special attention to the two following items:

- Is your booth number correct?
- PLEASE be careful to ensure that *no copy is cut off*, as Game Plan is designed to fit only four lines of text total per listing! For best results, keep your headline to two lines. **LOOK CLOSELY**, we can't fix it once the presses roll! Now's the time to catch it.

Also, check these:

- Does your logo look good?
- Do your product images look good? You may need to crop and re-upload.
- Are there any typos?
